by Robert Mantho : **The Urban Section: An analytical tool for cities and streets**

ISBN : #0415642590 | Date : 2014-10-26

Description :

PDF-99946 | The design of streets, and the connections between streets of different character, is the most important task for architects and urbanists working in an urban context. Considered at two distinct spatial scales – that of the individual street – the Street Section – and the complex of city streets – the City Transect – Urban Section identifies a range of generic street types and their succ... *The Urban Section: An analytical tool for cities and streets*
